0895390843060 | mogiivka16@gmail.com | <https://www.linkedin.com/in/kostenivka-mogi-a27200217>

Jakarta, Indonesia

A new graduate of the Information Technology field from President University, I am interested in job opportunities within the Information Technology field, particularly given my professional experience in Website Development, Designed Database Structure and Query, and strong understanding of SDLC processes. However, in addition to my IT expertise, I also have experience in Business Administration and also successfully built and managed small and medium-sized enterprises (UMKM). Therefore, I am very open to various positions and eager to leverage my diverse skill set to contribute effectively.
